## Buyer's Options

- 1) Purchase an animal outright or with a partner.
- 2) Buy-back program which is for those buyers who wish to contribute to the program but do not have the need for the meat, so they pay only the difference between the market price and the actual bid amount.
- 3) Add-on program. This program is where the buyer/contributor designates a certain dollar amount to be added to an individual or specific group's total sale amount.
