- RULE 2.** No disorderly conduct of any kind will be permitted. Minors are expected to be under adult supervision any time they are on the grounds. Curfew is 11pm in all livestock barns.
- RULE 3.** Open class static (not livestock) exhibits need to be pre-registered by July 24th, and will be accepted at the Exhibit Hall from 12pm to 4pm on Sunday, July 26th. **Pre-registration of entries is required** so entry tags will be waiting when entries are brought in for display. Entry forms may be picked up at the Fair Office or Johnson County Extension office, or printed from www.johnsoncountyfairgrounds.com. **Paper open class entry forms are due July 21th by 4pm and must be submitted to the Fair Board Office or Extension Office.**
- RULE 4. 4-H, FFA, and OPEN LIVESTOCK EXHIBITS MUST BE REGISTERED WITH THE JOHNSON COUNTY EXTENSION OFFICE ONLINE ENTRY BY JULY 9TH at 5pm.** Stalls, pens, and bulk shavings (until exhausted) will be furnished free to exhibitors, but the owner will be expected to feed and care for all livestock and attend to the cleaning and bedding of stalls. **EXHIBITORS OF ANY ANIMAL NOT BEING FED AND WATERED MAY BE ASKED TO REMOVE THAT ANIMAL FROM THE GROUNDS BY THE FAIR BOARD AND BE EXCLUDED FROM PARTICIPATING IN FUTURE FAIRS.**
- RULE 5.** Only animals entered in the Johnson County Fair will be allowed to be housed in the livestock barn during fair week.
- RULE 6.** All livestock entries in the Johnson County Fair must be in healthy condition and must be able to comply with sanitary regulations governing livestock as set forth by the Wyoming Livestock and Sanitary Board for all livestock in County and State Fairs. **Livestock will be required to remain on the fairgrounds facility following weigh-ins and/or carcass ultrasounds.**
- Biosecurity is the implementation of measures to prevent the introduction of disease into a healthy population of animals or limit the spread of disease once introduced.
- Our animal biosecurity is primarily designed on minimizing the risk of serious disease, with that being said the Fair Board cannot guarantee there will be no animal health issues. There is always a risk when bringing livestock to town but the Fair Board and Livestock Committee hopes these steps will help minimize the risks.
- The most important steps to ensure healthy animals start at home, so please be mindful of your animals' health and if you determine you have a sick animal do not bring it to the Fairgrounds. It is the responsibility of the owner of any animals coming to fair to work with your superintendent and a veterinarian to ensure your animal is healthy and does not pose a health risk to other animals or people. A veterinarian health inspection prior to entering the Johnson County Fairgrounds is not required but recommended. All animals entering the Wyoming State Fairgrounds are required to have a vet health check with the accompanying health certificate.
- During check-ins & weigh-ins there will not be a veterinarian onsite to inspect animals. The Fair Board will also require all 4-H and FFA breeding animals, along with open class animals, to check in at the appropriate species weigh-in station. If upon arrival at the Fairgrounds, a superintendent, Fair board member, or UWE 4-H Educator suspects an animal health issue the animal may be required to be removed from the Fairgrounds and a request will be made to have a vet health check. The Fair Board may also request to have a veterinarian on call throughout Fair week if any animal health issues arise to ensure prompt action.

- RULE 7.** Any animal deemed to be unhealthy by veterinarian may be asked to leave the grounds by Livestock Committee and or Fair Board member.
- RULE 8.** Departments for the Fair are open to Johnson County residents and Johnson County property owners only. Exception – 4-H Departments 16 & 18. 4-H members do not have to reside in the County but must be enrolled in 4-H in Johnson County. Proof of residency and property ownership may be requested.
- RULE 9.** The Johnson County Fair Board will use all diligence to ensure the safety of stock and articles after their arrival. The Johnson County Fair Board and the Superintendents will not be responsible for theft or damage of any entry.
- RULE 10.** No animals will be allowed on the Johnson County Fairgrounds before 6AM on the 1st Sunday of Fair. Campers can arrive on the grounds starting at 8am the Friday before fair.
- RULE 11.** Animals may be removed from the fairgrounds after the Stock Sale on Saturday night. All Open class exhibits & ribbons are to be removed only between 2:00-6:00 pm on the last Sunday of Fair. 4H & FFA static exhibits can be picked up 1:00 – 4:00 pm on the last Sunday of fair. The Fair Board will not be responsible for any entries remaining on the grounds after 6pm on the last day of Fair.
- RULE 12.** The management reserves the right to reject any unworthy exhibits of any kind by refusing space or admission to the grounds.
- RULE 13.** Limits on the number of entries made by an open class exhibitor will be specified in each Division’s rules. Articles entered in previous County or State Fairs may not be entered into competition, but may be exhibited for “Exhibit Only” They will not be judged. All entries will be judged for quality of work. Special awards may be presented to the outstanding exhibitor in Open Class Departments as donations are received. Agriculture

Read General Rules and Regulations in front of book and specific requirements for this Department

- RULE 1.** All competition in this Department will be open to both irrigated and dry farm products of Johnson County only.
- RULE 2.** Agricultural exhibits must be the product of the current year's crop except in case of corn and threshed forage seed which may be the product of this year and the previous year.
- RULE 3.** Exhibits will not be eligible for competition unless the amount of number stipulated in the Class is shown.
- RULE 4.** No exhibitor will be permitted to make more than one entry of the same variety in any one class.
- RULE 5.** All threshed grain samples shall measure one quart; sheaf grain, 2 ½ inches in diameter at the butt; and forage samples, 3 inches in diameter at the butt, except Millets, Sudan's & Sorghums which will measure 5 inches in diameter at the butt.
- RULE 6.** Oats must not be clipped.
- RULE 7.** Sheaf and threshed grain must be named.
- RULE 8.** All grain must be thoroughly cleaned.
- RULE 9.** Classes will be made for entries not listed.

HINTS TO EXHIBITORS

1. In judging threshed grain, the points most considered are purity, uniformity, and the fitness of the sample for the purpose for which the particular grain is used.
2. In sheaf samples of grain, the evidence of both yielding ability and the condition of the samples is regarded as important.
3. Sheaves of grain are not judged for their forage qualities.

PREPARATION OF SAMPLES

1. **SHEAF GRAINS** – Go to the field a few days before grain is ready to cut. Select samples and with a knife cut them close to the ground, so as to get the full length of the straw. Do not break straw in handling. Spread samples on a board in the sun to bleach. When green color is entirely gone and straw is perfectly dry, bind in bundles, tying with a soft cloth which will not cut the straw. Tie snugly in at least three (3) places. Then hang in dry place with head down until time for exhibition. Remove all leaves from plants to be used in the grain sample.
2. **THRESHED GRAINS** – Take sample from bin of threshed grain. Thoroughly clean with all grain mixtures, cracked kernels and weed seed being removed with a grain grader or fanning mill.

PREPARATION OF SAMPLES (CONTINUED)

3. **SHEAF FORAGE EXHIBITS** – Select the leafiest types to be found in the field – the best individual specimens obtainable – and cut close to the ground. DO NOT select specimens with coarse, woody stems. Place in loose bundles not more than five to seven inches in diameter or less than three inches and wrap loosely in a newspaper or cheese cloth. Then hand head down, in a dark place to cure. Do not strip a single leaf or branchlet from the stem, as forage should retain its color and leaves. In making the show bundles, select those individual stems that have retained the most leaves with their color. Make bundles three to five inches in diameter below the heads, and tie securely in at least three places except on short bundles on which only two are necessary.
4. **CORN** – Go into the field a week before display is to be gathered and, by stripping back the husks, select ears of uniform size. On those which are selected for show, draw the husk back in place and wrap the ear in a square of newspaper, tying with a string or rubber band. This will hasten the maturity of the corn. Within two or three days it will tint so to definitely settle its color, and within a week or ten days it will harden sufficiently for exhibition purposes.

DIVISION 1401
